

Introducing two new offerings from H E A R T H S T O N E . . .

• *Hearthstone Heart Pine Entry Door*

An extraordinary log or timber frame home needs a great front door! And, it seems no matter how much money you spend, the right door just can't be found. We're proud to offer the solution: The Hearthstone Heart Pine Entry Door!

The door starts as a massive heart pine timber in a turn-of-the-century warehouse or factory that is scheduled for demolition. We then "re-harvest" this outstanding wood and turn it into a beautiful door.

In addition to the antique recycled heart pine, the extra heavy door features just the right amount of character marks, hand planing, drawknifing, and authentic mortise-and-tenon pegged joinery. The door looks as though it came out of the 200 year old home of a colonial master craftsman.

(Door shown with optional hardware and trim.)

And . . .

• *WeatherAged Timber Finish*

This finish process wears the wood and raises the grain - just like mother nature does it. You can see in the photographs of the log and the weathered trim moulding that the effect is dramatic.

There is an almost undefinable awe that one feels in the presence of a 200 year old log home. Hearthstone's new process - *WeatherAged* - reproduces that worn and weathered look.
